So far, so fun, the cops done run us off of the dq lot  
burned a tank up, dang near drank up, all of the beer  
we bought  
trucks done covered up in mud, can't see a drop of  
paint  
down to three dollars, lord a whole lotta of hell's  
already been raised (and)

chorus 1

the night ain't over yet  
there's a whole lot of moonlight left  
to do things we might regret tomorrow morning  
you'd think it's crazy as it's gonna get  
but the night ain't over yet

tore up the town, already closed down two or three  
honky-tonks  
bill fought wrong guy, left with a black eye, had to pull  
him off  
talked beth and sue out of their daisy dukes and into a  
skinny dip  
oughta to be worn out, we're just about to catch our  
second wind

(chorus 1)

first one yawning, they'll be walking, we ain't  
stopping till sunrise  
so hold on tight

chorus 2

the night ain't over yet, there's a whole lotta  
moonlight left  
to do things we might regret tomorrow morning  
ain't no bail been made, no rights been read  
tammy's still got her top on her corvette  
but the night ain't over yet
