Love to hate me
I love that you hate me greatly
I appreciate the love

If you want me now
Celebrate the love that we have inside
Like a full moon bright
Right here into my arms
Every day I feel like I can live or die
If you realize
If you walk right out my life
I don't wanna lose the fire
I can't seem to forget you
Even though we're threw
You know it ain't love, oh oh oh
Why am I lost without your touch
You know it ain't love, oh oh oh
Cause this feeling is too much
You know it ain't love

Pitbull:
Mamy that's right,

You know it ain't love
You know it ain't love
Cause when you open up inside
I can't keep you from my eyes
You know it ain't love
