Ugh Yeah You should really turn this up
Natural Bridge and King's Highway
as loud as possible (that's what I'm talkin about)
Natural Bridge and King's Highway yeah
ask em' Where you headed?
Natural Bridge and King's Highway (yeah)
Natural Bridge and King's Highway

Come one with it
It's me and my derryty we just got back home
in the blue grey Bently with the cellular phone
Callin' up the 'tics time to get it jumpin'
smoke comin' out the sunroof to let em know we're
comin'
Errebody lookin' if you're jealous turn around
21 inches keep me further from the ground
I'm gettin good grip from the Dunlop Tires
The F1's bumpin' but I need the volume higher
Cause there ain't no way get on the basement beat hits
J.E. and Wally got an wanna get some
I heard them haters talkin' but what am I to do?
I'm the men that little hate the Bill Clinton of the Lou'

Picked up some shorties on Skinker towards roastin'
Headed for the castlelot muskada got me croachin
Bently kinda crowded ol car was leanin' back
Shandra watchin' TV with two gurlies on their lap
Martin Luther King the setence kinda dead
Made a left on King's Highway
Natural Bridge is just ahead
So fresh and so clean
U City representin'
the St Lunatics on castlelot set

(Chorus)
Where you headed?
Natural Bridge and King's Highway
Natural Bridge and King's Highway
Come on with it
Where you headed?
Natural Bridge and King's Highway

(Basement beats gon' make it rock the tic's gon make it
rock)
Natural Bridge and King's Highway
come on with it

Now rollin' with the tics you know we never bored
show me another click when more points scored
we walk around with criminals a bunch of big gorillas
My derryty Murphy Lee he's a teenage lady killer
Keyjuan is on my left side dancin' with this freak
The way she clap that *** make my knees get weak
JD is the white guy people think he's funny
Been down long time way before we had the money
But now we collectin' dollars from platinum to white
gold
Swervin' in this Bentley and ain't got no place to go
Rollin' past Fairground what's up to the thugs
Shorties in their mini's wanna show a little love
but the dope man got em and they bust just right
shorties looked depressed cause that thing gon' stop
Headed back toward G and bust a Uie what the hell
Somebody shoutin' Nelly were damn near out of L's
Baby girl blew me a kiss said you're number one
then looked and me and I ain't gon tell you what she
done
the closer we get the woozier I feel
Natural Bridge and King's Highway somebody take the
wheel

Where you headed?
Natural Bridge and King's Highway
Natural Bridge and King's Highway
Come on with it
Where you headed?
Natural Bridge and King's Highway
(Basement beats gon' make it rock the tic's gon make it
rock)
Natural Bridge and King's Highway
come on with it
