

## Whiskeytown "Captain Smith"

Visit "[Captain Smith](#)" on MotoLyrics.com

My heart is sinking fast just like the titanic  
My heart is pumping blood that's turning blue  
Well, I just want this cruise and I just can't imagine  
I'm drowning and it's all because of you  
Just as cold as ice ripped into my bough  
Drifted off in moonlight while my ship was goin down  
This cruise alone might be my last  
And I can't even fathom  
Why you left me alone to drown

My heart is sinking fast just like the titanic  
Captain would you please go warn the crew  
Well, everything is built to last, but it don't last forever  
I'm sorry but the end is coming soon

Just as cold as ice ripped into my bough  
Drifted off in moonlight while my ship was goin down  
This cruise alone might be my last  
And I can't even fathom  
Why you left me alone to drown

Just as cold as ice ripped into my bough  
Drifted off in moonlight while my ship was goin down  
This cruise alone might be my last  
And I can't even fathom  
Why you left me all alone to drown

Why you left me all alone to drown.
