when I see the moon, I hear the sound of the strip just
calling my name
just calling my name
when I see the moon, I hear the sound of the strip
just calling my name yeah it's calling my name
man, I love the feeling when I go out
dancing with the women at the bar
man, I love the feeling when I go out
I always know my woman's close somewhere

my daddy saw the moon, heard the sound of the strip it
called out his name
it called out his name
my daddy saw the moon and heard the sound of the
strip yeah
it called out his name and it called his son's name too
man, I love the feeling
when I go out
dancing with the women at the bar
man, I love the feeling
when I go out
I always know my woman's close somewhere
close somewhere

when you see the moon, hear the sound of the strip
yeah call out my name
yeah call out my name
and if you see the moon, hear the sound of the strip
yeah call out my name
yeah call my friend's names too
man, I love the feeling when I go out
dancing with the women at the bar
man, I love the feeling when I go out
I always know my woman's close somewhere
close somewhere
