when I see the moon,I hear the sound of the strip  
just calling my name  
just calling my name  
when I see the moon,I hear the sound of the strip  
just calling my name yeah it's calling my name

man, I love the feeling when I go out  
dancing with the women at the bar  
man, I love the feeling when I go out  
I always know my woman's close somewhere

my daddy saw the moon,heard the sound of the strip  
it called out his name  
it called out his name  
my daddy saw the moon and heard the sound of the  
strip yeah it called out his name and it called his son's  
name too

man, I love the feeling  
when I go out  
dancing with the women at the bar  
man, I love the feeling  
when I go out  
I always know my woman's close somewhere  
close somewhere

when you see the moon,hear the sound of the  
strip yeah call out my name  
yeah call out my name  
and if you see the moon,hear the sound of the strip  
yeah call out my name  
yeah call my friend's names too

man, I love the feeling when I go out  
dancing with the women at the bar  
man, I love the feeling when I go out  
I always know my woman's close somewhere  
close somewhere
