

Whiskeytown "Faithless Street"

Visit "[Faithless Street](#)" on MotoLyrics.com

Angels are messengers from God
Please send one down to me
Angels are messengers from God
Wrote a letter He should read

Been living on faithless street all by myself
Work your whole life for someone else
Trying to find sanction, Christ above man
He never shed His peace on this land
So I started this damn country band

Been living on faithless street all by myself
Work your whole life for someone else
Trying to find sanction, Christ above man
He never shed His peace on this land
So I started this damn country band
'Cause punk rock was too hard to sing
