Losing, losing
Patiently
Losing, losing

I can tell
She could tell everything
Losing patiently

Losing, losing
Losing, losing patiently
Losing

Well I can tell
She can tell everything
See what you have been losing

Losing patiently
See what you have been losing
Losing, losing
See what you have been losing
Losing, losing

See what you have been losing
Losing, losing
See what you have been losing, see what you have
been
Losing
