well where, wheres my nurse with my bottle of pills
with the daylight come dancin in through the blinds

its a comfort of a woman pills cant provide
its this terrible terrible pain in my mind

so where, wheres my nurse with my bottle of pills
she said shed be right back with a jack

its a comfort of a woman pills cant provide
its this terrible terrible pain in my mind

so where, wheres my nurse with my bottle of pills
she said shed be right back with a jack

its a comfort of a woman pills cant provide
its this terrible terrible pain in my mind
