Lonely, waiting around for night to fall
Restless, pacing the floor from wall to wall
I'll mix a drink for two and drink to you

Silent, wanting you more words can say
Prideful, don't make me beg for you to stay
Say that you'll always be right there for me

Oh darlin', let's try it again, we can begin a new life
Oh darlin', don't let it end, I know we can win this time
I'll hold on tight, don't run away, baby, please stay

Baby, it's hard on a man just to speak his needs
Save me, don't make this night an agony
This time my heart is true, we'll make it through

Oh darlin', let's try it again, we can begin a new life
Oh darlin', don't let it end, I know we can win this time
I'll hold on tight, don't run away, baby, please stay

Oh darlin', let's try it again we can begin a new life
Oh darlin', oh babe, try it again, we can be lovers, yeah

Darlin', oh babe, baby
Don't let it end
