"

Take My hand a lead me down the stairs
Cause I'm coming down some
The Luck i had a day before is gone
and I'm paying back some

Push the cushion down below
Cause I'm coming down now
Take my hand and listen to the sound
Cause it's really loud now

You said the burdon it lies above
But i wanna get up there
25 miles behind me you will stand
And I'm coming knocked out

Push the cushion down below
Cause I'm coming down now
Take my hand and listen to the sound
Cause it's really loud now

Listen, I'll try to make you understand
Why i wanna get up there
Wishing those things
weren't running though my mind
Cause I want it to be silent
wishing those things
