Hallo Mister Alcohol
What is it you've done to me?
Can't you just leave me alone?
Cause I've got this life to live

Met you in a subtle bar
Played around and went to far
And now you're always by my side
I need you to disappear

Hallo mister alcohol
What is it you've done to me?
Can't you just leave me alone?
Cause I've got this life to live

Meet you at a party again
Had the fun we needed then
Now your time has come to part
I need you to disappear

I have this life to live today
Don't need you by my side
Cause you ruin everything I do
I need to keep my self esteem

Hallo mister alcohol
What is it you've done to me?
Can't you just leave me alone?
Cause I've got this life to live

It's making me dizzy
I can't breathe in here
I need to get out
Cause I've got this life to live

Can't you just leave me alone?
Cause I've got this life to live
What is it you've done to me?
Can't you just leave me alone?
