When will you stop
sucking up
I'm tired of the brown lipstick
in you face

It's a political thing
It's a political thing you do...

When will you have your own opinion?
When will you stop following the hype?

It's a political thing
It's a political thing you do...

Yes you need to be a part of group
But the marketing group is never gonna let you in
Their ambition is to keep you into eating shit
And if you stop you should prepare yourself for war

It's a political thing
It's a political thing
It's a political thing
It's a political thing
You do...
