There's a battle ahead that I can't win
It is the day they are they calling me in
They are calling me in to smell my blood
That'll be the day that I'm going down

7 years up 7 years down
I'm loosing my face, I'm loosing my time
What do they get by calling me in?
Into their maze into their sin

This is the day that I'm going down
They are calling me in to spill my blood
I'm not's sure how, I don't know why
But this is the day that I'm going down down down!
