Walked into a cloud today.  
Put me in the strangest mood  
Fell into a mental state of decay

Don't know why these clouds are all  
Always seen to be hanging low  
They can make a mortal soul go down.

Sing hallelujah I'm going down.  
â€!

Went into the sun for love  
from my center I'll reach out  
through my sunny monocle  
I'm breaking out

I will try to stay above  
find a good spot in the sun  
with my mind on overflow  
I'm breaking out.

Sing hallelujah I'm going down.  
â€!
