Unshined

My friend you don't have to cry, no more
Boudours all bathed in sulphur

It's mean
you carry the weight of the world
It's dark
your waiting for the sun
It's late
you need a helping hand
It's hard
Get out, bail out

My friend, you don't have to worry, no more
My friend, you don't have to scream, no more

Roll, shame, love, so late, row, you say: more love,
shined, row, lame, bathe, sweat, you save, love, as of
you babe,
watching it, walking out, shame, come again
