

Whitecross "Signs Of The End"

Visit "[Signs Of The End](#)" on MotoLyrics.com

Take a look around the world,
Oh so many things you'll see
Even though it may not seem near
Predict a change for you and me

I know the days will come when men claim I am he
These things and so much more laid down in history

Man disobeys and we will pay
And the rumours of war go on and on
Won't you see the end is near?

These are signs of the end
Get this through your head
Live for signs of the end of the age
These are signs of the end
And soon will all come true
Watch for signs of the end
This warning is for you

You can't wait don't hesitate to find your way in life
You weren't put here on this earth to love your days in
strife

We've got to realize this world will fall away
But God sent his Son the Word to guide you on your
way

Man's hearts will fail you won't prevail
And the hungry children seem more and more
Please don't wait the end is near!

These are signs of the end
Get this through your head
Live for signs of the end of the age
These are signs of the end
And soon will all come true
Watch for signs of the end
