No one calls me beautiful like you  
And I love how you say it too  
Every word from you is filled with wonder  
I wonder why you love me but you do

And I would be a fool to argue with you  
Maybe I'd be wasting my time  
You've given me your word  
And based on what I've heard  
You must love me  
Really love me

No one knows me as deeply as you do  
Still I'm the one you choose  
Even though I prove I don't deserve you  
I don't deserve the love you say is true

And I would be a fool to argue with you  
Maybe I'd be wasting my time  
You've given me your word  
And based on what I've heard  
You must love me  
Really love me

And I would be a fool to argue with you  
Maybe I'd be wasting my time  
You've given me your word  
And based on what I've heard  
You must love me  
Really love me

No one calls me beautiful like you  
And I love how you say it too
