I'm going out of my head once again  
Thinking about when you touch me  
Your silence is making me nervous  
It's under the surface  
You're hiding from me

The time we spent together was perfect  
I know it was worth it

But I'll never be what you've been to me  
And now matter how hard I try  
We collide  
I know I can't escape  
The divide between love and hate  
My feelings for you still linger inside  
When we collide

Every morning I cried when I wake up  
I'm stuck in the breakup  
It doesn't seem fair  
Pictures of us scattered over the floor  
It used to be more  
When I knew that you cared

But you couldn't see what it did to me  
And no matter how hard I try  
We collide  
I know I can't escape  
The divide between love and hate  
My feelings for you still linger inside  
When we collide

You and I have died  
Why can't you finish what you started?  
Cause I'm sick and I'm tired of waiting for you  
Tired of being so broken hearted

We collide  
I know I can't escape  
The divide between love and hate  
My feelings for you still linger inside

We collide  
I know I can't escape  
The divide between love and hate  
My feelings for you still linger inside  
When we collide

Baby when we collide
