"Greenport Turning Point"

Visit "[Greenport Turning Point](#)" on [MotoLyrics.com](#)

I had watched you for the longest time
Something in your style that I could see
You had a way that I cannot describe
And you were everything to me
Yes somehow, you were everything to me

I look out over Long Island Sound
And ask her what has come to be
A turning point, a friend that I had found
She will remain a friend to me
Yes, she will stay a friend to me

A seagull spreads its wings and flies on by
A Greenport wave spills into me
A ship afar diverts its present course
Then continues out to sea

I hope you find who you are looking for
Someone who respects exactly who you are
And can give you everything you'll ever need
And you will remain a friend to me
I'll always love you, Nancy
And you will stay a friend to me
As long as time goes on
You will stay a friend to me
