Jet engines thunder, I'm on the road  
Into the sky, fly me home  
I'll play my music 'cause I love the night  
But home is my road's end  
And it's almost in sight

(Chorus)  
Southern seas I'll be a-rowin'  
Ocean mist will fill the air  
No more weight will I be towin'  
I can't believe I'm almost there

Southern wind keep on blowin'  
Sing your warm and sunny song  
Straight ahead is where I'm goin'  
Straight back home where I belong.

Through clouds of amber into the sun  
Back to the Southland I'm on the run  
Big bird a-fly me over my hometown  
Take me over my backyard  
And let me down.

(Chorus)

I can see the runway in front of me  
My legs are restless I'll soon be free  
This plane's a-landin' in the "Sunshine State"  
Friendly people, sunny weather  
How I can't wait

(Chorus)  
(Repeat Chorus)
