I, I tried to guide my life  
I stumbled, off of the narrow  
Path  
Losing myself in the darkest  
Night  
Searching for truth that I never  
Had

Guiding Light, open my eyes  
Help me to see in the night  
Guiding Light, show me the way  
Back to the path that is right for  
Me

Life just seemed to take it's toll  
I, I couldn't find the road  
Only when You came and guided  
Me  
Did I begin to really see  
Guiding Light, You opened my eyes  
Now I can see in the night  
Guiding Light, You showed me the  
Way  
Back to the path that is right
