Why would you make this newborn child
The receiving end of a life so vile
Out of which nothing good will arise
Another waste of space for me to despise

Wasted! drank and smoked
While you were pregnant
Jerk! beat your wife
When she wouldn't listen
Do i need to spell it out for you?
This kid of yours is fucking doomed

Can't take care of your own selves
There's no way out you're now forever stuck
With this one mistake
You'll be the only ones to blame
When this shit comes blowing back
Right in your face
