They're out to get me
try to upset me
and interpret me
can't they just let me?

I've got five
due tomorrow night
I'm alright when I'm not sober
blend the green and brown
before I leave this town
all night will be over

and they don't know you
not like I know you
try to outgrow you
what does that show you?

I've got five
due tomorrow night
stay down and come over
blend the green and brown
before we leave this town
all night will be over
