Domestic scene what's missing here?
Leaving just in time

Social climbers at the frontier
But I refuse that climb

I'm leaving just in time
I'm leaving just in time
Leaving just in time

Domestic scene do I belong?
Seemed like a good idea at one time
But now it's all wrong
Already declined

I'm leaving just in time
I'm leaving just in time
Leaving just in time

Leaving just in time
I'm leaving just in time
I'm leaving just in time
Leaving just in time
