(Skyzoo talking)

Yea ! Eh yo! 9th

They got a long way to go homie

I mean I am talking

But you know its like the sample says you know

They got a long way to go

Cuz when they talk

Its like I gotta lean to the side just to listen to em

Cuz they talking outta the side of they mouth

Let me put them on a S.K special yo

(Verse 1)

Peep it

Another beautiful day with a scene it is

Look at the stores, twisted rod those is prefexis

I know the corner like ma sneaker size

So when you speak of the curb its like you speak of sky

You see me ride on my H.O.P like ma mother name me

HIP

So you can't show me nothing about making a flick

I was born with it, sorta like I was drawn with

So am gonn get it in the heart of the stone with it

Amma brow difference

But now or later and blue juice

Barbeque some fly sees and fruit loops

Live from the 718 to the death of this

Marry the code I propose and she excepted it

As far as the MIC I does this in ma sleep

I pen a song before you get on beat word

They only hatin' cuz they wantin' 'â, -Ëœ to be us

And they am on the drum is like am fuckin' the
speakers

Hear me out

(Hook)

Y'all looking for a way to go

But we been here Certified in here

Feeding is a ???? here

This shit is KO you motherfuckers still looking for a way
to go

(Verse 2)

I got em screaming my name from bad bitches to ma
day one fans
The bottom line is the grind
I made one plan and stuck with it
This shit is like a lay up fam its automatic
I treat it like straight up gram you all addicts
Addicted to the leaning on the curb
16 so mean got em leanin on the words
Its nothing you can do to SKY
I put my heart in the badge
You see the ??? line look closer
You don't wanna get involved
If the corner had a logo it be me yankee a fitted on
Burner bulging out on the waist cuz slippin up is all that
it takes
The city's favourite ghetto celebrity
Never learned swagger I inherit the recipe the recipe
Still living up that expensive wardrobe shit
And living into it makes me sick

(Hook)
