Vegas boulevard, hotel room key, what you say?

"Would you like to come back with me?"
And never speak of going home. Tell your friends get
lost
We'll be alone.

We're far apart. Don't wait for me she said
Maybe we just lost control.
And now I sing, your melody. Goodbye..
And thanks for killing rock and roll.

Night time is all we have. I can't wait so..
Ring-Ring. When you're ready let me know.
Whisper so softly in my ear.
You ask me nicely to touch your body.

We're far apart. Don't wait for me she said
Maybe we just lost control.
And now I sing, your melody. Goodbye..
And thanks for killing rock and roll.

Wasted, call me, said you love another.
Heal toe dance girl stealing all the covers
Next time you see me I'll have a smile waiting.

So ask me all of your questions
I'll tell you what you wanna know
And it's so sad to see,
I'm into everything bad for me.
And dont feel sorry you see..
I'm not sorry. I'm not sorry.

We're far apart. Don't wait for me she said
Maybe we just lost control.
And now I sing, your melody. Goodbye..
And thanks for killing rock and roll
