I'm outside of your window throwing rocks to wake you.  
Up I'll climb to steal a... Kiss me I won't forget.  
I feel your heart beating faster am I dreaming?  
Close your eyes and whisper, "please be mine forever."

Cause you are what I really need  
True as text books, words I speak.

So now you're on your own and I am all alone.  
I see you, I miss you and I will tell the truth about  
How I need you.  
Do do do, do do do, do do do, do do do.

Stars will fall around us as we dance through darkness.  
Hold my hand so softly, tell me how you love me.  
Rest, sweet dreams I'll watch you sleep with hopes  
tomorrow  
I'm outside of your window, throwing rocks to wake  
you.

Cause you are what I really need  
True as textbooks, words I speak.

So now you're on your own and I am all alone.  
I see you, I miss you and I will tell the truth about  
How I need you.  
Do do do, do do do, do do do, do do do.

We'll race the sunrise. The snow feels warmer tonight  
with..  
This neon new year. So perfect now that you're here.

So now you're on your own and I am all alone.  
I see you, I miss you and I will tell the truth about  
How I need you.  
Do do do, do do do, do do do, do do do.
