London. Destroyer.
You took without looking.
London. Destroyer.
You swallowed him whole.

Standing here forever won't change a thing.
No pay phone in the world can reach him.
I can't look at you after what you did
Traffic like a river just pulled him in.

London. Destroyer.
You took without looking.
London. Destroyer.
You swallowed him whole.

Standing here forever wouldn't mean a thing.
But you cut him off without a feeling
Your grey buildings aren't thinking about going back
In a city where the rain never ever ends.

London. Destroyer.
You took without looking.
London. Destroyer.
You swallowed him whole.

Green northern lights off the wing of my plane.
I flew to London, but it's was too late.
