I called you possum, in your baby curls  
You were mummy's problem, but you were daddy's girl  
Those curls have grown now to a long ponytail  
Now you're my teenager, country style

You rocked me daddy, in my baby chair  
And mummy would say we were a crazy pair  
When a-rockin' with the baby, it drives you wild  
But love you my daddy-o, country style

With your transistor everywhere you go  
You'll live by the rhythm of the teenage show  
But you know country music, I can see by your smile  
'Cause you're my teenager, country style

I know all the crazes their doin' today  
I just like music any kind of way  
But your kind of music, dad, is of a country mile  
Rolls on forever, country style

When you're on vacation and you're with the show  
You're my star attraction, well I reckon so  
Then our country music takes on a new style  
Sung by a teenager, country style

Let's get together and all clap hands  
And spread our music all over the land  
All over Australia, night after night  
Let's sing together, country style  
Let's sing together, country style  
Let's sing together, country style [fade]
