Love, is there something that's on your mind?  
I'm here for you any time  
Are you working things out alone  
Finding your own way back home?

Still I'm far away

And when you go I'll meet you there  
All gone again, when will it end  
And when you go I'm always there  
All gone again, when will it end

Lost but you're winning inside my head  
And I'm dying for you, so care  
You've made me feel like such a fool  
When all that I do is for you

Still I'm far away  
Don't you fall again

And when you go I'll meet you there  
All gone again, when will it end  
And when you go I'm always there  
All gone again, when will it end

Ask myself  
What is this life we're living for  
Sell myself  
As long as you're here I'm always there

And when you go I'll meet you there  
All gone again, when will it end  
And when you go I'm always there  
All gone again, when will it end
