He could barely remember  
When the fighting began  
It was early September  
When he lost his old man  
Soon the time came to leave there  
And to start a new life  
How it seems so unfair  
When they gave him a gun and a knife

Chorus:

So he fights with a gun in his hand  
For what reason he can't understand  
Yeah, he fights with a gun in his hand  
For the freedom (of their land)

Can you hear them crying out  
All the people in El Salvador  
Can you hear a distant shout  
From the people in El Salvador

As he stares at the ceiling  
He thinks back quite away  
It was him that was dealing  
Tell you those were the days  
As he stares at a white dove  
Tears roll down on his face  
And then once filled with love  
That only God himself can replace

Chorus

Can you hear the crying out  
All the people in El Salvador  
Can you hear a distant shout  
From the people in El Salvador  
(cross your heart and hope to die)  
For the people in El Salvador  
Still they kill not knowing why  
All the people in El Salvador

Can you hear them cry?

Can you see them die?  
Can you tell me why?  
All the people in El Salvador
