Down again
And this time we're gonna pretend
It never happened
No one knows

I'm going straight
I'm leaving it up to fate
So where you going
I've got a feeling you don't even know

You'll see me drowning for all to see
Why did this happen
And why do I feel useless

I feel useless
Useless

Time stands still
As you take your last pill
So where you rollin' [™]
I've got a feeling you don't ever know

You'll see me drowning for all to see
Why did this happen
And why do I feel useless

I feel useless
Useless
