

## White Light Motorcade "We Come Together"

Visit "[We Come Together](#)" on MotoLyrics.com

Just as I'm about to know you  
You take it away just like my breath  
And now I can't breathe

I'm here to show you  
How good it could be  
So just relax and let me set you free

Could I be who you want all the time  
Never want nobody else, feel complete  
Compromise all the time  
Don't care I'm all by myself

Love you when we say forever  
Love you when we come together  
I can't stand to stay forever  
So I love you when we come together

There's so much in you  
That represents who I would love to be  
You are my lover, so do this for me  
And I'll relax and let you set me free

Every night, never hide  
Never want nobody else, feel complete  
Compromise all the time  
Don't care I'm all by myself

Love you when we say forever  
Love you when we come together  
I can't stand to stay forever  
So I love you when we come together

We'll discover we're one lover
