Children crying from the heat
Don't they know they belong
People fighting, can't compete
Don't they know that they're wrong?

Time is standing still all around
Yet time takes us on a trip
(Round an' round our minds)
Pictures of a dream
All it does is cloud all the lies

Let's all join our hands, raise them together
Fight for the lives that are real
Let's all join our hands, raise them together
Fight for the right that we feel

Nations plan, hearts are weak
Don't they know you belong?
Years of growing reach the peak
Don't they know that they're wrong?

Life surrounds us in many different ways
All we see are switches there to take it all away
Pieces of a dream
All it does is cloud all the lies

Let's all join our hands, raise them together
Fight for the lives that are real
Let's all join our hands, raise them together
Fight for the right that we feel

Is this the way we treat one another?
Days filled with hope, lives filled with fear
Why must we live at war with our brothers
When we could live our future at last?

Let's all join our hands, raise them together
Fight for the lives that are real
Let's all join our hands raise them together
Fight for the right that we feel

Let's all join our hands raise them together

Fight for the lives that are real
