Lady of the valley, can you hear me cry?  
In the stillness of the night  
I have lost my brother in the fights of the war  
And my heart has broken down

In the night I cry but no one seems to hear  
I step into the light but all I feel is fear

Lady of the valley, can you bring him back  
To the days when we were kids?  
Once we were together, we stood young and strong  
But now it seems so long ago

The golden key is at the end of the chain  
How it hurts, oh lady free me from this pain

In the night I cry to the lady of the valley  
'Cause I'll die without the lady of the valley  
In the night I call to the lady of the valley  
On my knees, I fall before the lady of the valley

In the valley lies the treasure  
And the lady guards it well  
He who bears all the pressure  
Is the one to break the spell

There's a sign that I've followed  
It has led me to your seat  
I have brought my fallen brother  
And I've laid him, yes I've laid him at your feet

In the night I cry to the lady of the valley  
'Cause I'll die without the lady of the valley

In the night I cry to the lady of the valley  
'Cause I'll die without the lady of the valley  
In the night I call to the lady of the valley  
On my knees, I fall before the lady of the valley
