Â°: I will never let go, I will never
I will never let go, I will never
I've got to hold on, everyday in every way
But the things you say, just couldn't be that way
You'll never ever reach you don't try
Instead you keep on telling all those dreadful lies
Let's wait and see, how things will be, when I am free
Don't worry 'bout me
Don't worry 'bout me, 'cause
I will never let go, I'll always try and
Than I've got so much soul
You wonder why
It's just because I'm so true
You'll be feeling blue, when I get through
There's nothing you can do
1. I know I would, and I have no idea [Horns]
2. Now I know I would, I know I could
I know I'm good, I know I would. :/
