Are you slowly spacing out?
Are you sight or are you sound?
Are you telling me that this is as loud as it goes?
I don't know but it's bound to get old,
Everyone can't be confused,
I'm awake so come on now.

Up until your covers blown,
Apologizing to the ghost,
Everybody's gotta go.

Oh, well wouldn't you know it,
Everyone can't be confused,
I'm awake so come on now, now.

You got no reason to leave,
You got everything you need,
How much longer will you bleed?
The damage is done.
And so on, so unconvinced,
Everyone can't be confused,
I'm awake so come on now now.
