There was a time I was customer
The man that how that someone put them follow you
And even further in something you not
Just someone you like that you well
It's nothing personal,
It's nothing personal!
Those two arrive after you leave
One man is one and just the center gravity
You live a reminder of a different memory
But I'm only thinking about
It's nothing personal,
It's nothing personal!

Now I wanna to relax now
Just something to relief
It's nothing personal
It's just that I'm not me,
I'm not me, I'm not me!

Hmm, yeah you got it, nothing else to control
Well, if it's all the same, let the truth talk
Yah only got one round

All I want is to relax now
Just something to relief
It's nothing personal
It's just that I'm not me
Yeah, your sight on the sea
It's nothing personal
It's just that I'm not me,
I'm not me, I'm not me!
Uh, uh, uh
