

White Rose "State Of Mind"

Visit "[State Of Mind](#)" on MotoLyrics.com

These days I feel like I'm dreaming
It's like my whole being was made for this
These days I wish I had a rocket
I'd fly to the moon and back to get what we lack
Which is nothing of value to me

The car's feeling more and more like home
It's holding everything I own and it makes me want to
say
I've got the brightest future of the day

And we say we're better off this way
We don't care what you say
'cause we're right

And you say
You played it safe in school
And the time we spent chasing was time you thought
we were wasting
But it's not

The car's feeling more and more like home
It's holding everything I own and it makes me want to
say
I've got the brightest future

nothing's bigger than love
bigger than love
bigger than love

And in one two three, you'll finally see,
there's just one thing you can't take from me
It's way up high 'cause girl
We'll have a good time

So just jump real high and clap your hands
We're doing it all because we can
It's way up high 'cause girl
We'll have a good time
