[Verse 1: Slow V & Retrospect]

[Slow V] As soon as the compact makes contact

Slide in between and the laser's on track

The treble and the bass operate on track

It's one fact, the shit becomes a chain reaction

[Retrospect] The main attraction, bass impacting

'Till quakes shake your dandruff and break
attachments

Windows start shaking, car seats quaking

You think you smell flames when the speakers start
blazing

[Slow V] The bass is booming the floor's reacting

Screws start popping 'till the roof's detaching

Your wheels are rumbling, your gears get shafted

Your car's in action 'till your window's blasting

[Retrospect] Now the land is shifting

Your transmission is in a bad position, car frame's
bending

Bump it 'till you hear thump from mad distance

Noise 'till the oil in your motor starts boiling

[Slow V] The noise makes your trunk and your hood
pop up

The speakers is flaring till you breaks lock up

Screaming now you hear the speakers bleeding

Heating until you feel your engine steaming

[Retrospect] Combustion, musical eruption

If claustrophobic then move cause' the car's exploding

All for wheels pop out in directions

There's no more car it got lost in the message

[Bridge]

Explosion, do you feel the shit we flow with?

Blast it, 'till this shit's flaming ashes

Drastic 'till you feel your ass impacting

Havoc disastrous, massive fractures

[Chorus]

Yea bump it 'till you feel that shit

Yea bump it 'till you feel that shit

C'mon bump it 'till you feel that shit

Just bump it 'till you feel that shit

[Verse 2: Retrospect & Slow V]

[Retrospect] Your parents ain't home, it's safe to raise
tones

Go ahead turn it up to your say so

Your tables are shaking it really don' faze you

Turn up the bass 'till ya neighbors complaining

[Slow V] Craving, just the sound got you racing

Blazing 'till you see your drapes is waving

Bass-ing, even got the ceilings quaking

Chandelier bouncing, pictures shaking

[Retrospect] Now the ceiling is peelin the chairs are
spinning

Tiles are shifting the whole house is drifting

Plates start falling in the kitchen all is ending

You're scarred but you optimistic

[Slow V] You're too far in so you can't turn back

Turn it up a little hear the pictures crack

The tables in the house bounce front to back

The cracks in the ceiling even make the walls detach

[Retrospect] With all of that civilians catch heart attacks

Where malls be at, past to the Laundromat

If you turn it up, the highways would crash

And even your own hairline gets pushed back

[Slow V] But you don't give a damn so you turn it up

The floor caves in, everything fragile busts

The house falls in pieces concrete lifts up

You dodge in time, just to see the stereo burn up

[Bridge]

[Chorus]

Louder, Louder, Louder, Turn it up

Keep goin', Blast it

Surround Sound {*3X*}

[Chorus]
