Now the time has come the demons approache  
In their satan eyes there's satan's course  
But king Horant always says "It will be all right"  
He won't reach the ODIN's reign he will win the fight  
The world has got it wrong and we see the outcome  
My heart began to flutter in this bloodstorm  
But king Horant always says "It will be all right"  
He won't reach the ODIN's reign he will win the fight

[chorus]  
Horant always says the same  
Time has come for the brave  
Just time to say a quick hello  
Time has come for the war

Now the time has come the demons approache  
In their satan eyes there's satan's course  
But king Horant always says "It will be all right"  
He won't reach the ODIN's reign he will win the fight

[chorus]  
Horant always says the same  
Time has come for the brave  
Just time to say a quick hello  
Time has come for the brave
