The northern warriors pray  
The hurted bodies raise  
TYR God of war they praise  
He's really proud to fall  
Fall under the sharp blade  
The only way to die  
They vowed to die arms in hand (in hand)  
Valhalla joy's waiting for them  
White-armed maidens named  
The coosers of the slain  
Will take them to the Reign  
They fill the Heroes horns  
Someone looks like a skull  
The drink of Gods they taste  
[chorus]  
Fightin' hardly the Heroes die  
But the wounds are healed  
Feasting the Heroes days  
They will live forever  
Oh, Oh
