They called people in a special mass
During the homily the priest showed the cross
Show me your right hand and swear on the Bible
Who is infected now go forward

The snake is here crawling everywhere
I'm scared of my relatives and...

[chorus]
Accusing all my neighbours

I'll save my soul
This is the result
Of your fanatic Edict

Majorca was the first time, three hundred and thirty
seven
People self denounced and confessed their own guilt
Two thousand and four hundred did the same in
Toledo
Many people burned in the Castile region.
