

# White Skull "Top Secret"

Visit "[Top Secret](#)" on [MotoLyrics.com](https://MotoLyrics.com)

You have seen a light from the sky,  
burning  
Heart a big crash on the earth  
All the people are searching for the death zone,  
searching  
But the area was just closed

Another mystery, the people want to know

Chorus:

Secret, secret, is falling from the sky  
All the people think, who was, and why  
You know that there is another life coming from the  
stars  
From the sky

1941 was the year of the crash down  
The spaceship was moved to another place  
Magazines were talking about that all day  
The authority was talking about an accident
