She looks good swiss cheese put your head from the
hose
A pistol's sneaking tease more than I can ignore
A quick lap round the track, man, she's keeping me
active

She looks good
The girl's attractive

She looks good chip beef such a miracle fray
I slice through me when I call her name
Ain't no mystery a matter of fact is

She looks good
The girl's attractive

Don't I can't resist her please tie me down

Mixed drinks always lead glass is as full as is tall
But hip strip there's sweet rubbing alcohol
A hook ball and chain oh the girl got you captive

She looks good
The girl's attractive

Don't I can't contain myself please tie me down
