I spent most of my teens aggravated through youth
Fabricated the truth and barricaded the booth
I'm glad that I made it since I salivated here's proof
I spit the shit to hit your click or bitches with sickness
So when I flip the script I'm kicking nothing but
swiftness
This is it here's a tip for when I quit so don't forget this
I'm the man, but only of the hour
Got plans to devour people that are acting phony or are
cowards
Wanna play Dicapprio in basketball and run through
flowers
Come with better aim than the planes that ran through
the towers
A veteran in my own right just look at the way I hold
mics
I'm cold as Ice like Choclair; don't close the light the
darks near
I spark fear in fakes drive and steer without brakes (SE)
Even in the outtakes got the hotness to drought lakes
Or oceans for that matter I'm as potent as crack batter
Losing time like Aaron Stampler or The Mad Hadder
My primal fear is rhyiming here without and ear to listen
to me
People acting brave but yellow as the liquid that is
pissing through me
Sorry to have to break up your plans for me dropping
My disc gets spun like candy cotton you must be
drunker than Andy Totman
If you think I'm falling off and rotten this aint the
Rascals
Its Haskill asshole that's most often forgotten
So tap your memory, remember me through the
century
An entity sent to be a friend to few who's the enemy

[Chorus]

I told you, told you I'm hotter than hell
I cast the first stone the day Lucifer fell
Even though I got my sins I'm still in this to win this
So until I'm finished I'm holding off on my penance

It started off as nothing much but when the pen hit the
pages
Became contagious spit with razors kick to phrases to
amazement
I'm the Man....As stated in the last verse
I'm sick like afterbirth my lines are full price yours are
half the worth
I'll smack the nurse Ms. Hatchett with the ratchet by my
left thigh
Got a plastic prophylactic, wasn't helping left eye
The day that Lefty died Joe Pistone went for home
Wait it was Sonny Black funny fact cut from the version
that was shown
Coercion of the dome as I roam through nature
Spread my nomenclature said I liked ya but I've grown
to hate ya
Erase ya like I'm Arnold Swartzenagger Light
amplicator like Laser
An acronym I'm rappin in now what the fuck is
happening
I'm snapping in out of the movies kiss the booty
Find Lotto from 8 mile give back the diss that he threw
me
That's right I'm from the beaver land 3 hours east of
Cleveland
Or 6 hours northwest if you're a Derek Jeter fan
I'll show you how to beat a man but not casino with bats
An MC known to meet em greet em eat em as snacks
Bitches at up get mistreated with smacks (SE)
I'm conceited so when I'm heated I can breath and melt
wax
And I'm not from Melmax that's Alf I'm one of hells
batch that's svelte
A human being teaming with the demon of self
