(coverdale/moody/young)

Never wrote a single word I didn't want to say
So glad I got to know you better today
I never wrote a single word I didn't want to say
I want to see you tomorrow
If that's ok, that's ok

I've seen a lot of everything I didn't want to know
Somebody's dying all the time
I've seen a lot of everything I didn't want to know
Want to live tomorrow to come and go, you know, come
and go

I'm playing your game
And feeling just the same
Oh I'm just your fool around, I'm just your fool around
But I don't get you down

Am I gonna see you when the lights have all gone
down?
Will I hear you calling out my name?
Am I gonna see you when the lights have all gone
down?
Wanna hear you say it

I played your game
This ain't your game...
