I'm going back to the place I was born  
With an empty pocket an' a suit well worn  
All my life I've been short changed  
I ain't never found a woman wanna take my name

# I want some love an' I want it now  
And I'm gonna take it any all how

I want it all, I want it now  
I'm gonna beg, borrow, steal somehow  
I want it all, I want it now  
I'll thieve it all, baby, anyhow  
I'm going to steal your heart away

God only knows I've paid my dues  
Spend most my live living hard time blues  
All my nights, baby, all my days  
I've been trying to find a woman help me change my  
ways

#

Now I've found me an angel with a heart of pure gold  
A fine looking woman gonna soothe my soul  
So come on, baby, take me by the hand  
We got a first class ticket to the promised land

# ...(2x)

I want it all, I want it now
