So far away from you my darling
I feel weary down to my bones
I'm coming home to your good loving
And I'll never ever leave you alone

I will love you deep as the ocean
I will love you till the sun don't shine
I won't rest till your beside me
I will love you till the end of time

I left my home to seek my fortune
I left you standing in the pouring rain
And now I'm lost so tired and lonely
I'm just trying to find a way back home

I will love you deep as the ocean
I will love you till the sun don't shine
I won't rest till you're beside me
I will love you till the end of time

I will love you deep as the ocean
I will love you till the sun don't shine
I won't rest till you're beside me
I will love you till the end of time

Till the end of time
Till the end of time
Till the end of time
Till the end of time
